## HAZ GROUP OF COMPANIES

HAZ Group of Companies, a well known and trustworthy national and international brand, started their professional life in 1978, with a will to serve the natural stone industry, displays its success with their references.

Member companies of HAZ Group are guided by Haz Marble' s know-how, quality standards and its passion towards their profession. HAZ companies have met the world wide accepted business standards through total quality management and highly principled work methods.

HAZ Group carries out the services required for natural stone design and installation works under its own organization. With this advantage, Haz Group spreads its name to the world by earning the natural stone installation works for the biggest projects in the world.

The mission of HAZ Group of Companies is to serve the natural stone industry with its business know-how and to share their passion towards the profession with its clients and other companies within the industry.

## HISTORY

HAZ Marble was founded in 1978 in Jeddah, Saudi Arabia. The activities in the field of natural stone installation have commenced in the beginning of 1980's.

HAZ Mermer A.Ş. has been established in 1988 in Turkey, followed with branches in England, United Arab Emirates, Egypt, Qatar and Russia.

HAZ Group started investing in production after 1991. The production of natural stone, fixing systems and polishing abrasives are done by the member companies.

## PRODUCTION

Gramerit was established in 1982 and is located in İzmir, Turkey. The company joined the HAZ Group of companies in 1992.

Gramerit was united with HAZ Marble in 2007 and provides high quality production of natural stone panels.

The HAZ Group of companies supplies some of its projects both abroad and in Turkey with cut to size natural stone from Gramerit factory.

Gramerit also exports a significant amount with regard to its 350.000 M<sup>2</sup> yearly production capacity. Gramerit and HAZ Marble has united to form HAZ- Gramerit which is managed by HAZ Marble and the trademark continues to exist.

The factory has been fully refurbished to meet the ever increasing demands of HAZ projects around the world, and the demands of its clients.

HAZ Gramerit boasts Pedrini machines from Italy and possess the latest technology in stone production.

HAZ Gramerit has the resources to supply and produce any type of stone from Turkey from partner quarries according to the specifications of the project.

## INSTALLATION

HAZ Marble stands ready to provide services for the installation of natural stone works and site management works for the following areas.

- Flooring
- Paving
- Masonry
- External facades
- Internal facades
- Worktops
- Stairs
- Landscaping

HAZ Marble has the resources to mobilize for any project world wide within three months. With access to Turkish and local installers, HAZ Marble has a capacity of installing 200.000 square meters of stone cladding annually.

The company has experience in taking responsibility of projects which are over 100.000 square meters in size and have successfully completed the works in the stipulated time without compromising quality.

HAZ Marble has a reputation for delivering what it promises and prides itself on being a reliable contractor among their prospective clients.

## CONSULTANCY

HAZ Marble shares the responsibility for making the correct choice of natural stone and the correct method of attachment with the architects and developers on any project.

It is the company objective to offer its knowledge and share the vast experience in the field of natural stone construction with its clients.

HAZ Marble's experience since 1978, and the trained personnel are specialists in providing proposals and advice to meet the demands of each project.

From the choice of stone, the design of fixing systems through to the final execution of the stone works, HAZ Marble will contribute the knowledge and experience the company possesses, in order to do the job perfectly.

HAZ Marble has a worldwide network of quarry owners, stone manufacturers and designers together with whom they will work to source the material required for a particular project.
